Dr. J. W. Ransom, of Turner, was in the city today on business. He is not in the best of health, and will spend a short vacation in Southern Oregon.

Flouring Mill Burned.

Rev. David L. McLain arrived in the city today en route for his home at Macleay, whence he is called by his wife's illness. He says at 8:30 today as the stage passed through Camas valley the flouring mills owned by Mr. Judson at the head of the Coquille river was burning.

Not Starving.

It has been reported that a family consisting of a woman and three children had been living in a tent on the river bank for some time, and were in a destitute and almost starving condition. Charitably disposed people of the city today visited the woman and from her it was learned that they had plenty to eat and wear, and that all they need is money. They have several horses and a wagon and a man hangs about the camp.

The family is of Gypsy origin, and the woman gains a little money by buying lace and selling them as her own make. They came here from Portland three weeks ago. It was learned that they are indulging extensively in intoxicants, and while our community should be willing to aid deserving poor, this family does not rightly come in for a share of the alms.

A POOR GIRL.—Miss Ruth Piester, aged 14, was committed to the county poorhouse yesterday by County Judge Hubbard. She has been kept by Mrs. Louisa Strauser of Marion for some years.

THE MILITIA BOYS.—Major Percy Willis has made all his studies complete preparatory to being examined for his commission, which has not yet been issued.

NOTARIES.—Wm. H. Wood and R. W. Roberts of Portland were commissioned yesterday.

The U. S. Gov't Reports show Royal Baking Powder superior to all others.

SPEDON, THE CARICATURIST.  
The last entertainment of the Y. M. C. A. course was given at the opera house last night, and was largely attended. Mr. Spedon proved himself an artist, and his manipulation of the crayon was marvelous in its results. Mr. Spedon is also a good ventriloquist, and gave several illustrations of his ability as such. As a whole the course has proved a complete success, and all are loud in its praise.

INDOOR BASEBALL.  
A game of indoor baseball was played at the armory hall last night between teams from Companies B and I, 2d regiment O. N. G., resulting in a victory for the former. The score stood 27 to 13. George Bushnell acted as umpire, and Major Percy Willis kept the score. Saturday night Co. B's team will play the Y. M. C. A. team at the association's rooms.

## UNIVERSITY NOTES.

Rev. G. W. Grannis conducted chapel exercises Monday morning.

Miss Greta Strickler is now enrolled among Willamette University students.

M. S. Early returned to school Wednesday, after a week's absence on account of sickness.

Miss Bessie Burkhardt has so far recovered from her recent illness as to be able to re-enter school.

Chapel rhetorical this week, Monday, essay Jessie Settlemyer; Tuesday, essay Bessie Shepard; Wednesday, recitation James Shives.

R. W. Callison, an old university student, but now a successful attorney at Newberg, was the guest of his brothers Messrs. J. P. and J. W. Callison the first of the week.

The new laboratory, or rather new location, is a great improvement over the old. It has been removed to the third floor, opposite the society halls. The class numbers nearly fifty and is making excellent progress under the direction of Prof. L. G. Cochran.

The students of the university were pleased to learn of President Hawley's success at the wood-chopping contest at Albany last Saturday night, when the gentleman took first prize, being most skillful at the art. One pupil showed his appreciation by placing the following inscription upon the blackboard: "Prof. W. C. Wawley, professional wood-chopper, \$7.50 per stick."

The Athletic Association held a meeting Monday at 3:30 o'clock, when H. G. Hibbard, I. H. Van Winkle and Chester Murphy were elected as delegates to represent old Willamette at the Athletic Convention to be held at Portland next Saturday. Delegates from the various colleges of the state will meet while in Portland, and arrange a program to be carried out on field day, which will be held in Portland next June.

Monday morning two or three of the young gentlemen students, of the university, assembled in room 14 during chapel, and converted several chairs into blocks, and erected a castle or a tower upon the table. When Prof. L. G. Cochran reached the room he astonished the young gentlemen with the remark, "That's nothing new. I saw the same thing over twenty years ago." The young architects will probably erect a more modern structure next time.

IMPROVEMENT NOTES.

Deacon Hatch, on Front street, has put down a new walk.

Five new houses were built in Morningside this year.

A new cement walk is going down in front of the Methodist church.

Carpenter Webb, of South Salem, is confined to the house by the grippe.

The elm and alder are considered by many as our most beautiful shade trees.

B. B. Cronk has just completed a cement walk in front of his property on Center street.

Chas. Worrick, the Englewood carpenter, has been repairing the unholy side-walks about the court house.

John Moir's house and Dr. Mott's have new roofs, but a coat or two of paint would be a great improvement.

Dr. J. W. Ransom, of Turner, was in town today ordering material for a new office and surgical laboratory he is building.

The stone work on the new Salem Woolen Mills is completed and five bricklayers struck their trowels into the brick work Wednesday.

H. M. Branson & Co. will move their stock into the old Van Eaton and Squire Farrar stand this week. The store is owned by Bill Anderson.

The Oregon Central and Eastern Railway has some improvements in contemplation for its river service at Salem—our greatest competing line.

With his one-horse cart the street surfacer, McKillop, is doing some good graveling. The gravel costs the city now about \$1.75 a load the way it is done. It could be put on for 60 cents a load by contract.

The Ira Erb factory is getting out material for two new houses. Mrs. S. E. Foster, on Winter street, is building an \$800 cottage. Mr. Heidecker, the cement walk builder, is putting up a neat cottage to cost about \$2000 on Liberty street. It is to be occupied by one of the Stock Bros., recently married.

FEBRUARY ARRIVALS.—Among important arrivals in the Willamette valley the past two weeks were Mr. Toothworth, Miss Trilium, (who we are sorry to say paints her face), Mr. Lambton, and Johnny Juniput. They did not come from Dakota, but were found in the boy's paradise of South Salem, Mr. A. Bush's park. Of course, the children will recognize them as our first Oregon wild flowers, though they do not usually arrive as early as the middle of February.

## THE SCHOOL ELECTION.

Some Facts About the Annual Meeting and School Election.

Under the present school laws there are really two annual school meetings to be held. The first of these has been held, when the board submitted its annual report, giving a full statement of the condition of the district, its financial condition and estimates for the coming year. Upon the latter the annual levy was made by the taxpayers present. The next meeting will be held Monday evening, March 2, when a report will be submitted, showing the condition of the district to that time, which is the beginning of the fiscal year.

The annual election for a director to succeed W. H. Byrd, to serve five years, will be held on Monday, March 9. There will be four polling places, located at the following points:

The Red Front Livery, corner Commercial and Trade streets.

Savage & Reid's feed house, opposite State Insurance building.

The room at 554 North Liberty street, second door south of W. L. Wade's store.

The armory building, on State street.

The following petition has been filed with the board, and will come up before the meeting next Monday evening for consideration:

To the Board of Directors of School District No. 24, Marion County, Oregon:

We the undersigned, residents of the northern portion of school district No. 24, respectfully represent that the North Salem school building is not convenient of access for a very large proportion of the patrons of that school residing in the northern end of the district, that what is known as the Polytechnic institute would accommodate a very large proportion of those who are now compelled to attend the North Salem school, and it would be for the interest not only of that portion, but for the whole of the district to purchase or lease the Polytechnic institute building. We therefore respectfully petition that you take such action in this matter as will secure the possession or use of this building in case you find the interests of the district will warrant it.

Your Boy Won't Live a Month.

So Mr. Gilman Brown, of 34 Mill street, Gardner, Mass., was told by the doctors. His son had lung trouble, following typhoid malaria, and he spent \$375 with doctors, who finally gave him up, saying: "Your boy won't live a month." He tried Dr. King's New Discovery and a few bottles restored him to health and enabled him to go to work a perfectly well man. He says he owes his present good health to use of Dr. King's New Discovery, and knows it to be the best in the world for lung trouble. Trial bottle free at Fred. A. Legg's drug store.

Made in Costume.

The Daughters reception to be given at the First M. E. church Friday evening, February 28th, will be a very novel affair. A fine program, a delicate lunch to be served by the Daughters in costume, and a good social time is promised—all for the small sum of 15 cents.

The Yaquina Route.

Salem and all river points get the greatest benefit from the competition afforded by the Willamette river steamer lines, as against the Southern Pacific.

Salem business men and all shippers who can do so are favoring the Yaquina route, which is rendering an excellent freight and passenger service. The Oregon Central and Eastern railway is the only hope of Western Oregon to escape taxing the tariff all it will bear.

Business men and shippers stand by the Yaquina route.
